

School Accountability Report Card

Reported Using Data from the 2017–18 School Year

California Department of Education

For *Anova Center for Education School*

Address: 1140 Galaxy Way, Suite 100, Concord, CA 94520

Phone: 925-687-9616

Principal: Lisa Mullis

Grade Span: K-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2018–19)

The Anova Center for Education (ACE School) is a certified Non-Public School or NPS serving special education students. Our program serves children and teens (ages 5 through 22) diagnosed with High Functioning Autism, Asperger's Syndrome, Emotional Problems, Learning Disabilities and other Neurodevelopmental Impairments. Students experiencing emotional and/or behavioral challenges benefit from our specialized learning environment addressing both academic and social issues related to their disabilities. The ACE School emphasizes academic instruction meeting California state standards, with an enhanced staff-to-student ratio and small class sizes (no more than 12 students per class). The ACE School provides specialized treatment to address complex sensory integration difficulties, specific learning disabilities, language deficits, and impairments in social cognition and related skills. Support services are available for ACE students during their school day. The use of adaptive technology (including multiple computers per classroom and state-of-the-art educational software), video modeling, and other multi-sensory approaches to education are also an important part of our curriculum. Additional support in the form of social skills and language groups, and diagnostic services are available to students attending the Anova Center for Education. ACE teachers, therapists, and support staff are dedicated to assisting each student to achieve academic competence, learn the interaction skills necessary to navigate the social world, and re-integrate to their neighborhood school with the skills and confidence necessary to function independently in all environments and maximize their success. Anova is dedicated to empowering children, supporting families, and strengthening communities worldwide by providing the commitment, the insight, and the practical knowledge that promotes independence and changes lives.

Anova's Mission Statement

The mission of Anova is to provide innovative educational and behavioral services to children and adults with autism spectrum disorders, learning disabilities, emotional disturbance, and other neurodevelopmental impairments. Our services are provided in school, community, and home environments, allowing individuals to function more independently, engage in meaningful relationships with others, and lead an improved quality

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements

ACE School makes great efforts to ensure that the school campus is clean, safe and functional. To assist in this effort, periodic, planned inspections are made by the School Safety Team. We emphasize locating potential hazards that can adversely affect safety and health. All personnel will be responsible for continuous, ongoing inspection of the workplace. When uncovered, potentially hazardous conditions will be corrected immediately or a maintenance report will be filed to initiate corrective action.

In the school's efforts to keep students safe on school grounds before, during, and after the school day, ACE requires all classroom staff and administrative staff to be assigned in supervising designated specific location areas before and after school during the unloading and loading of buses in the AM morning and PM afternoon times. The school also provides limited/controlled access of campus entrances during the school day. All visitors are to check in with the secretary at the front desk of the school's main office building. Any students arriving late to the campus are to also check in with the secretary at the office main front desk. Supervision of grounds and buildings is required by teachers, classroom aides and administrators at ACE at all times during the school day.

ACE School in Concord has 8 classrooms and 12 small group instruction rooms. The Therapy Clinic provides space for Speech/Language and Occupational Therapy. The school administrative team ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner.

A. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students Grades Three through Eight and Grade Eleven Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2016–17	School 2017–18	State 2016–17	State 2017–18
English Language Arts/Literacy (grades 3-8 and 11)	18	7%	48%	50%
Mathematics (grades 3-8 and 11)	17	5%	37%	38%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

**CAASPP Test Results in ELA by Student Group

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

Career Technical Education (CTE) Programs (School Year 2017–18)

The ACE School offers career preparation and vocational training that focuses primarily on the social and organizational aspects of vocational life. Specifically, we have students whose IEP’s may specify training in the completion of job applications, the acquisition of a work permit, acquisition of a state driver’s license or ID card, refinement of personal interviewing skills, and mastery of the executive functioning and prioritization skills required to attend college or maintain meaningful employment. Additionally, the ACE School collaborates closely with the district of residence that administers vocational programs such as workability. Our students are regularly offered contact with appropriate professionals including district specialists, college representatives, and other potential decision makers at IEP meetings and throughout the school year. The ACE School offers a full transition class as an elective to satisfy transitional goals.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

B. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018–19)

The ACE School encourages and welcomes parental and family involvement across the educational and treatment continuum.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

Rate	School 2015– 16	School 2016– 17	School 2017– 18	State 2015– 16	State 2016– 17	State 2017– 18

School Safety Plan (School Year 2018–19)

ACE School provides a comprehensive school safety plan that is reviewed, updated and discussed with the school faculty on a regular basis. The main key elements of the safety plan can be located in the ACE *Disaster and Emergency Procedures Master Plan*. Key elements of the school safety plan are as follows: pupil drill; teacher drill; school safety committee personnel description and responsibilities; instructions for converting building into a mass-care center. The safety plan also includes the school/site map description of student/staff assembly area location, emergency student/staff evacuation routes, utility shutoff locations, fire extinguishers and first aid kits and emergency supplies location. The school evacuation plan includes all possible and safe evacuation routes. Key elements of the evacuation plan include student release procedures, parent/student reunion access, student emergency housing and designated school supervision.

ACE School has a system of training and drills to address the need for safety should a disaster occur during business hours.

1. The School Director, who is a Safety Committee member, conducts monthly fire drills with staff and students.
2. Duck and Cover drills are coordinated by a trained teacher in each classroom and are implemented quarterly with students.
3. Emergency Preparedness Training takes place annually with all school staff.

Types of Services Funded (Fiscal Year 2017–18)

Occupational Therapy Services include complete assessments and follow-up intervention services to assist students with a variety of gross/fine motor and sensory integration difficulties. Anova's Occupational Therapists work to normalize students' reactions to normal sensory input, help them become better aware of their bodies in space and how to manage them appropriately. Handwriting problems and other fine motor skill deficits are also a major emphasis of treatment. Each child receives an individualized treatment program based on their assessment.

Speech and Language Services include thorough assessments measuring baseline language abilities, the design of highly individualized treatment programs, skillful and effective treatment, and stringent follow-up to effectively gauge progress.

Social Cognition Therapy assists students to understand the internal world of others through individual and small group coaching. Complex and nuanced social issues are broken down and made more concrete to increase student comprehension for use in their daily lives. A specific vocabulary is used throughout the day to reinforce or correct various social behaviors. Real-time interventions are used to allow students to see the immediate effects of their social behaviors on others. Individual and group treatment is delivered in the classroom, clinic, and across the school milieu to promote skill retention and generalization.

Professional Development

All teaching and program staff attend regularly scheduled meetings and in-services designed to address instructional, behavioral, and therapeutic strategies and approaches endorsed by the school. Teachers are sponsored to attend outside workshops and seminars on relevant topics, and encouraged to share new knowledge and ideas at the staff meetings. Teachers involved in University Internship Programs are mentored by an administrator and teacher on campus. The administrative staff routinely visits the classrooms and provides coaching to the teacher as the need arises. Guest speakers who are experts in their particular fields are also invited to share their knowledge and insights with the teaching staff in both formal presentations and informal discussion formats. The school staff attends quarterly in-services to receive the required trainings in areas such as: Behavior Management, Incident Report writing, Emergency Preparedness, Blood Borne pathogens and Universal Precautions. Teachers and Specialists participate in 5 development days per year.
